A Teledyne Technologies Company

Teledyne Monitor Labs Opacity Attenuator (Filter) Certification Service

Teledyne Monitor Labs makes it easy and inexpensive for you to keep your opacity attenuators (filters) certified. Teledyne Monitor Labs offers Opacity Filter Certification Services for all major opacity monitors. This service will help you meet the requirements of 40CFR60 Appendix B, Performance Specification 1. Our state of the art facilities ensures accuracy of your neutral density opacity filters by using NIST traceable standards.

**40CFR60 Appendix
B, Performance
Specification 1 requires
opacity attenuators be
calibrated semi-annually.**

Standard Pricing for Certification

- One Certification of one set of three filters... \$240.00 plus shipping. (Standard turn around, two weeks.)
- Expedite fee... \$ 75.00 plus shipping. (Expedited turn around, three days.)

Filters will be returned in a durable reusable case with cert. documents.

Pricing per Certification, with Annual Certification Agreement

- Two Certifications annually of one set of three filters... \$420.00 plus shipping. (Standard turn around, two weeks.)
- Expedite fee... \$ 75.00 plus shipping. (Expedited turn around, three days.)

We make filter re-certification easy...

An email will notify you 60 days prior to your next certification due date.
